How to Reach Me: Marketing to Digital Natives in a Post-Analog World

Justin Rezvani with Omar Shamout

Mobile phones and social media have changed the world – especially the world of marketing. The popularity of social media platforms such as Facebook, Instagram, YouTube and Snapchat are bringing advertising to the Internet, inducing corporations to spend less money on TV and print campaigns, and more money on social media. In the process, they're learning more about the people who buy their products than they ever thought possible. Not only is this a clarion call against old thinking, but it is a controversial defense of digital data gathering for the purposes of marketing.

Justin Rezvani – 27-year-old founder and Chief Executive of the influencer marketing firm, theAmplify – is the perfect person to walk us through the digital media revolution. As a millennial and an entrepreneur, Justin got in on the ground floor of this industry, launching his company with only \$15,000 in January 2014. It took less than a year for Justin to build a multi-million dollar business from scratch and become one of the most sought after digital marketers in the country.

All Washed Up

Elizabeth Fairman

ALL WASHED UP is a novel that both honors and pokes fun at its theme in the nicest possible way. Told in a recognizably soap-opera-ish voice, and brimming with the juicy highs and lows of every good soap opera plot, it will delight and amuse fans of that genre, and beyond.

With a flash forward to the Daytime Emmy Awards ceremony, we begin ALL WASHED UP and meet its four main characters, all former or current soap opera actors --Tina, Mike, Bridgette, and William. Tina has been nominated for an award but her date, Mike, has disappeared from the ceremony, and just before Tina's category is announced, a gunshot is heard in the ballroom, causing commotion and panic.

We then head back in time, to see what led up to this moment:

Tina Powers has enjoyed a decades-long career as an actress on the soap Forever & Always. Although she knows there are problems in her marriage to producer-turned-network exec Randall Powers, she is shocked when he serves her with divorce papers. Soon after, Forever & Always is cancelled. Distraught, Tina finds an unexpected ally in dishy co-star Mike McGarvey. Mike has his own problems, dealing with both the cancellation of Forever & Always, and his career implosion on the reality TV show, Celebrity Dancing. His disastrous dance performance was humiliating, and although Tina is nearly 20 years his senior, they fall into a surprising romance after sharing hard luck stories, ending in an intimate encounter on the empty set of their former show. Their burgeoning relationship will be tested by nasty publicity about their age difference and Mike's increasing dependency on painkillers, used to treat an injury he sustained on Celebrity Dancing.

Tina's friend, actress Bridgette Rousseau, is forced to relocate with her son Max when her current soap, Southeast General, moves from New York to Los Angeles. LA is where Max's biological father, William Curtis, a former soap actor, lives and works as a now famous prime-time television and feature film actor. William has no idea that Bridgette was pregnant when they broke up seven years earlier, and even after re-connecting with her in LA and meeting Max, Bridgette continues to hide the truth from him. They begin to date again, realizing quickly that their love for one another has never faded. Unfortunately, a serious health issue for Max forces her to confess the paternity secret, and William shuns Bridgette while still vowing to save their child's life.

Despite celebrity gossip, mixed signals, obsessive fans, and, of course, murder, this tasty romp has a happy ending for all in the best soap opera tradition.

New Things

Erin McHugh

If you're beginning to feel like you've gotten too deep into your predictable groove, try NEW THINGS!

Sometimes we get so cozy in our daily routines that we don't notice we've lost the part of ourselves that was curious, maybe even a little adventurous. Then one day, we wake up and think about all those things we thought we might try, or dreamed of doing, but never did.

NEW THINGS was prompted when Erin McHugh was forced to sell her beloved family home. Instead of seeing it as a loss, she parlayed it into new experiences that made her realize how much she loved doing new things. Now she's on a mission: In the way she recaptured a sense of charity by vowing to do one good deed a day for a year (which resulted in her popular blog and book of the same name) McHugh is testing her own willingness to try lots of new stuff over the next year. She wants to share the joy of these experiences with her readers, whether it's taking a winter surfing lesson on Coney Island, or riding a train across the country or being an extra in a movie.

Each essay will be written in McHugh's signature entertaining and inclusive voice, and will bring to light what she hoped to gain, what she learned, and what the reader can glean from her experience. She'll talk about how her readers can come up with ideas that are just right for them. How what's new and interesting changes at different times of life. How to include others in your adventures. How to deal with other peoples' reactions (good & bad) to what you're doing. How everything doesn't need to cost something-- there are plenty of new things that can be done for free.

Bottom line: Let Erin McHugh inspire you to start a different kind of to-do list! Move forward with as few regrets as possible. Try new things!

Fat Kid and Raymond

Jack Galvin

A Young Adult novel in the tradition of Packer's *The Dive from Clausen's Pier* and Moyes' *Me Before You*, **FAT KID AND RAYMOND** starts with a chance meeting on a town beach on an unusually warm April day. Fat Kid, short-fused, overweight class clown, bets Mike, a young man he does not know, \$10 to dive into the cold surf to show off for his girlfriend, sunning nearby. Mike accepts and in a freak accident breaks his neck. In the year that follows, Mike, the 18 year old son of a well-to-do former star athlete and real estate entrepreneur in the town, must deal with quadriplegia. Fat Kid, the academic screw-up who saved Mike's life, is hailed as the hero but must deal with secret guilt.

Told from Raymond's (Fat Kid insists that his real name be used after the rescue) point of view, Raymond struggles with the truth that only he knows, as Mike has no memory of the bet. Raymond's sometimes brutal honesty and Mike's need for more than hypocritical cheer make them improbable friends.

As he devotes more time to Mike, Raymond finds his own life improving. He's losing weight. He loves cooking in his high school's Culinary Arts class, and loves even more his part-time job in HalfMan's, a local bakery, where the owner teaches him to bake at 4 every morning. He is learning to love Patti, who also works at HalfMan's, a girl almost as heavy as he is. He now wants to finish high-school. He's not the loser kid he was before, with a vision only as broad as his small town's borders.

Should Raymond continue at HalfMan's Bakery, a town institution, where Stanton, the owner, has offered him an amazing opportunity? Or go away to college where he'll not only get a degree but be there to help Mike? What does he owe Mike? Stanton? What does he dare to owe himself? Guilt says go to college. Passion says stay at HalfMan's. Raymond's decision allows him to see a future that holds possibilities he'd never imagined for himself.

Jack Galvin co-wrote *Within Reach: My Everest Story* (Dutton, 1999) with Mark Pfetzer. *Within Reach*, which chronicles Mark's attempt to become the youngest to summit Mt. Everest, won many awards as a YA notable book and was translated into German and Korean. With over 185,000 copies sold, it is still used in many schools.

The Overground Railroad: The Green Book and the Roots of Black Travel in America

Candacy Taylor

While the American road trip signaled freedom for some, it was really only meant for white Americans.

From 1936 to 1966 Victor H. Green, a black postal worker from Harlem, NY, published an annual guide to help blacks travel the country with dignity. He called it “The Negro Motorist Green Book”, and every cover featured Mark Twain’s quote, “Travel is fatal to prejudice”. Advertisements inside affirmed: “Just What You Have Been Looking For!! NOW WE CAN TRAVEL WITHOUT EMBARRASSMENT”.

The Green Book was a resourceful and innovative solution to a horrific problem. Segregation was in full force throughout the country and black travelers couldn’t eat, sleep, or even get gas in most white-owned businesses. Moreover, they had to navigate a country with nearly 10,000 “sundown towns”, all-white communities which banned blacks from their city limits after dark. Considering the violence and terror blacks encountered on the road, The Green Book provided critical, life-saving information and offered shelter in an unsafe world during a shameful chapter in American history. It was a powerful tool which helped blacks to persevere and literally move forward in the face of racism. The Green Book listed hotels, restaurants, beauty salons, department stores, barbershops, taverns, nightclubs, tailors, garages and real estate offices that opened their doors to black people. It even included recreation parks such as Disneyland, golf courses, and Murray’s Dude Ranch, billed as the “Only Negro Dude Ranch in the World”.

In THE OVERGROUND RAILROAD, Candacy Taylor, an award-winning African American photographer, author and cultural documentarian is creating a trans-media, multidisciplinary project that will consist of a book, a traveling exhibition, an interactive digitized map, a mobile app featuring the most compelling Green Book sites still standing, and a virtual reality platform.

This is an exciting and rich opportunity to re-examine America's checkered history of segregation, integration, black migration and the rise of the black leisure class before these rare examples of physical evidence disappear. In addition to photographing Green Book sites she will interview people who used these facilities as well as living Green Book property owners and/or their family members. It took courage to be listed in the Green Book, and the stories from those who took a stand against racial segregation deserve to be recorded and celebrated.

The Smithsonian Institution has gathered a team to develop a possible exhibit based on Taylor's project, designed to travel the country.

Taylor's Green Book work is supported by various prestigious grants, including one from The National Endowment for the Arts; and fellowships, including her current position at Harvard University working under the auspices of Henry Louis Gates.

Taylor's previous book, *Counter Culture: The American Coffee Shop Waitress* (Cornell University Press, 2014) is used in university-level reading lists, was widely covered in the popular media and was bought as the basis for a prime time television series by ABC television.

Francie and Sugar - a picture book series

Jamie McGillian

Sugar -- Sugar is a pug who thinks he's part human. Imagine a sweet and funny grandpa dude stuck inside a short, fat, snuggly coat of fawn-colored fur. He always looks nervous, as if something is about to fall on his head. And he's always worried about Francie, knowing she's a magnet for all kinds of trouble.

Francie -- Francie, half-Asian, half-Caucasian, is 5 years old and more of a dog person than a people person. She's bossy and funny, she doesn't think much of being hugged too tightly by grown-ups, and is reluctant to talk about her feelings. Francie speaks to Sugar as if she is human. Francie's mom is a beautiful Asian woman; her dad is a pilot in the army.

The narrator for these books is always Sugar.

In **BIG NEWS FOR FRANCIE AND SUGAR** Francie and Sugar know that Mommy has something important to tell them, and each one imagines what it might be. Francie thinks they could be moving to Antartica, or that Mommy's going to teach golf at a fancy resort where Francie will get to drive golf carts, or that Mommy is buying a museum full of dinosaur bones. Sugar is less sanguine—she thinks maybe Mommy is planning to give Sugar away. After all, she does eat and bark a lot, and leave hair on Mommy's chair. But the big secret is that Francie is starting school! Both Francie and Sugar are miserable at the idea of being apart, but on Francie's first school day Sugar spies Francie through the classroom window to see that Francie's shirt, with the picture of a pug that looks an awful lot like Sugar on its front, has helped Francie make a new friend.

In **FRANCIE AND SUGAR'S DAY AT THE SALON** Daddy is coming home on leave and Francie wants to get spruced up for his visit. Mommy says she can get a hair cut, but Francie knows dogs aren't allowed in a salon. Determined to take Sugar along, Francie disguises Sugar as her "Quiet Friend Sharon" and sneaks her in to the salon anyway. While Francie is getting her hair washed Sugar can't help but follow her doggy instincts and of course, chaos ensues. In the end, though, Sugar gets a make-over too, and they both look great to greet Daddy.

Murder at Small Koppie: The Real Story of the Marikana Massacre

Greg Marinovich

In *Murder at Small Koppie*, renowned Pulitzer Prize winning photojournalist Greg Marinovich explores the truth behind the Marikana massacre, looking specifically at the largely untold slaughter of black miners at Small Koppie.

In August 2012, the miners' wildcat strike at Lonmin PLC's platinum mine in Marikana, northwest of Johannesburg had been a long time coming; working and living conditions at the mine had become increasingly desperate as the company failed to make promised improvements.

The workers expected a largely peaceful job action. Instead, they were met with a hail of bullets from assault weapons fired by police who were there ostensibly to maintain law and order. When the fusillade ended, 34 miners were dead—some clearly hunted down and killed at close range. In the aftermath, many of the survivors would be charged with the murders of their compatriots. No police were charged.

It was the worst act of government violence in South Africa since the Sharpeville Massacre, committed by the apartheid regime in 1960; and this time it was a black-run government killing black workers. Greg Marinovich uncovers the complex and highly questionable relationships among company executives, union officers, and major government officials. Taking readers into the mines, the shacks where the miners live, and the boardroom, Marinovich puts names, faces and stories to Marikana's victims and perpetrators. He addresses the big questions that any nation must ask when justice and equality are subverted by conflicts around class, race, money, and power.

Second Chances

Erin McHugh

This book is an inspiring, funny, thoughtful compendium of stories from people who have wanted another chance at something – and got it. Big stuff like going back to college after the kids grew up. Little stuff like getting a judo belt when you thought you could hardly manage a push-up. Reminiscences of people who found a leg up, a soft shoulder, another spurt of energy, a hidden talent, sometimes with the unexpected help of friends (and strangers) – and sometimes from a place inside them they didn't even know existed.

The Every-Other Day Diet

Krista Varady, PhD and Bill Gottlieb, CHC

The Every-Other-Day Diet is a new, effective, simple and unique approach to weight loss—a remarkable diet that allows you to eat anything you want, and as much as you want, every other day. Here’s how it works: the diet breaks up the week into alternating Feast Days and Fast Days. On Feast Day you can eat whatever you like, with no restrictions. And on alternate days –Diet Days – you eat only 500 calories, about 25% of normal caloric intake. And that’s it! The Every-Other-Day Diet is perhaps the simplest diet to hit the market because there is truly only one rule: every other day, eat 500 calories.

Krista Vardy, PhD, an associate professor of nutrition at the University of Illinois, has more than 30 papers on the topic published in the American Journal of Nutrition, Obesity and many other respected journals, and she is currently working under a 2 million dollar grant from the National Institutes of Health on every-other-day dieting and weight maintenance.

Like My Teacher Always Said...: Weighty Words, Crazy Wisdom, Raps with the Ruler, and Advice We Can Never Forget – Even If We Tried

Erin McHugh

Who's right up there as an authority figure to growing children and inquisitive grownups-to-be? Teachers, of course, and they come in many guises – from kindergarten teachers to college guidance counselors, homeroom referees to nuns, coaches to the artists and musicians who round out our kids' cultural persona. Outside the home they mold lives more than any other person our kids come in contact with, and any teacher will tell you this “other” part of their jobs has grown exponentially in the last decades; the effects of two working parent and single-parent homes has upped the responsibility and breadth of what teachers do every day for children. In many cases, they become the third parent, and kids grow up remembering just what they say.

Like My Father Always Said...: Gruff Advice, Sweet Wisdom, and Half-Baked Instructions on How to Fix Your Stuff and Your Life

Erin McHugh

With the early success of LIKE MY MOTHER ALWAYS SAID..., the obvious next branch on the family tree is fathers. McHugh says that in the process of doing LIKE MY MOTHER ALWAYS SAID..., she encountered lots of people who asked, “Please come back to me if you do a book about fathers – I’ve got plenty to say!” Now, McHugh offers fatherly advice, which is significantly different in tone from what mothers say: while mothers seem to take more of a bear-to-cub protective approach, dads’ wisdom carries a sweet, but sometimes gruff note of worry for their kids’ futures.

Like My Mother Always Said...: Wise Words, Witty Warnings, and Odd Advice We Never Forget

Erin McHugh

Though you might not even realize it, you probably repeat the words and (occasionally questionable) wisdom of your mother. After a friend pointed out to Erin McHugh how often she invoked her mom's quotations and memories, she started noticing just how frequently other people did, too. Erin also recognized how humorous, moving, and unusual these gems were and set out to collect as much maternal philosophy as she could. *Like My Mother Always Said* presents the wonderful and screwy things that our moms tell us in their attempts to be helpful and instructive. (Whether they succeed or not is another thing entirely.) Offered up in quips and short anecdotes, the wide variety of information gleaned from our mothers covers all the bases from love and marriage to how to handle your alcohol and plastic surgery.

Political Suicide: Missteps, Peccadilloes, Bad Calls, Backroom Hijinks, Sordid Past, Rotten Breaks, and Just Plain Dumb Mistakes in the Annals of American Politics

Erin McHugh

Every time there are elections, we can be certain that more skeletons will be found in closets, more mud slung – and, as we know all too well from history, it matters not whether the stories are real or imagined. Once something is in the ether, true or false, it can often mean **POLITICAL SUICIDE.**

This book brings fascinating history *plus* the crazy antics to readers who thrive on politics and election details that throw voters on both sides of the aisle into tailspins every few years. Did he cheat on his wife? Did she buy the election? Who stole what? Is that even legal? Some actions (and the voters' reactions) simply put politicians in the hot seat for a while – other problems put them straight out to pasture. Full of scandalous facts and anecdotes – much more pithy than a book of trivia, and definitely the tastiest morsel of 2016 and the book of choice for everyone who either gets fed up or never gets enough of this stuff.

Man Alive: A True Story of Violence, Forgiveness and Becoming a Man

Thomas Page McBee

What does it mean to be a man?

In *Man Alive*, Thomas Page McBee attempts to answer that question by focusing on two of the men who most impacted this life – one, his otherwise ordinary father who abused him as a child, and the other, a mugger who almost killed him. Standing at the brink of the life-changing decision to transition from female to male, McBee seeks to understand these examples of flawed manhood and tells us how a brush with violence sent him on the quest to untangle a sinister past, and freed him to become the man he was meant to be.
