SYNOPSIS:

When Walter Nash is recruited by the FBI to help bring down a global crime network his life is turned completely upside down in this thriller from #1 *New York Times* bestselling author David Baldacci.

Nash is an intelligent man, tough but fair-minded. He has a wife and a daughter and a very high-level position at Sybaritic Investments, where his innate skills and dogged tenacity have carried him to the top of the pyramid in his business career. Despite never going on grand adventures, and always working too many hours, he has a happy and upscale life with his family.

However, following his estranged Vietnam-veteran father’s funeral, Nash is unexpectedly approached by the FBI in the middle of the night. They have an important request: become their inside man to expose an enterprise that is laundering large sums of money through Sybaritic. At the top of this illegal operation is Victoria Steers, an international criminal mastermind that the FBI has been trying to bring down for years.

Nash has little choice but to accept the FBI’s demands and try to bring Steers and her partners to justice. But when Steers discovers that Nash is working with the FBI, she turns the tables on him in a way he never could have contemplated. And that forces Nash to take the ultimate step both to survive and to take his revenge: He must become the exact opposite of who he has always been. And even that may not be enough.

SYNOPSIS:

Fourteen-year-old Charlie Matters is up to no good, but for a very good reason. Without parents, peerage, or merit, he steals what he needs, living day-to-day until he's old enough to enlist to fight the Germans. After barely surviving the Blitz, Charlie knows there's no telling when a falling bomb might end his life.

Fifteen-year-old Molly Wakefield has just returned to a nearly unrecognizable London. One of millions of children to have been evacuated to the countryside Molly has been away from her home for nearly five years. Her return, however, is not the homecoming she'd hoped for as she's confronted by a devastating reality: neither of her parents are there.

Without guardians and stability, Charlie and Molly find an unexpected ally and protector in Ignatius Oliver, and solace at his book shop, The Book Keep. Mourning the recent loss of his wife, Ignatius forms a kinship with both children, and in each other they rediscover the spirit of family each has lost. But Charlie's escapades in the city have not gone unnoticed, and someone's been following Molly since she returned to London. And Ignatius is harboring his own secrets, which could have terrible consequences for all of them.

As bombs continue to bear down on the city, Charlie, Molly, and Ignatius learn that while the perils of war rage on, their coming together and trusting one another may be the only way for them to survive.

SYNOPSIS:

Jack Lee is a white lawyer from Freeman County, Virginia, who has never done anything to push back against racism, until he decides to represent Jerome Washington, a Black man charged with brutally killing an elderly and wealthy white couple. Doubting his decision, Lee fears that his legal skills may not be enough to prevail in a case where the odds are already stacked against both him and his client. And he quickly finds himself out of his depth when he realizes that what is at stake is far greater than the outcome of a murder trial.

Desiree DuBose is a Black lawyer from Chicago who has devoted her life to furthering the causes of justice and equality for everyone. She comes to Freeman County and enters a fractious and unwieldy partnership with Lee in a legal battle against the best prosecutor in the Commonwealth. Yet DuBose is also aware that powerful outside forces are at work to blunt the victories achieved by the Civil Rights era.

Lee and DuBose could not be more dissimilar. On their own, neither one can stop the prosecution’s deliberate march towards a guilty verdict and the electric chair. But together, the pair fight for what once seemed impossible: a chance for a fair trial and true justice.

Over a decade in the writing, *A Calamity of Souls* breathes richly imagined and detailed life into a bygone era, taking the reader through a world that will seem both foreign and familiar.

SYNOPSIS:

When CIA operative Jenny Silkwell is murdered in rural Maine, government officials have immediate concerns over national security. Her laptop and phone were full of state secrets that, in the wrong hands, endanger the lives of countless operatives. In need of someone who can solve the murder quickly and retrieve the missing information, the U.S. government knows just the chameleon they can call on.

Ex-Army Ranger Travis Devine spent his time in the military preparing to take on any scenario, followed by his short-lived business career chasing shadows in the deepest halls of power, so his analytical mind makes him particularly well-suited for complex, high-stakes tasks. Taking down the world's largest financial conspiracy proved his value, and in comparison, this case looks straightforward. Except small towns hold secrets and Devine finds himself an outsider again.

Devine must ingratiate himself with locals who have trusted each other their whole lives, and who distrust outsiders just as much. Dak, Jenny's brother, who's working to revitalize the town. Earl, the retired lobsterman who found Jenny's body. And Alex, Jenny's sister with a dark past of her own. As Devine gets to know the residents of Putnam, Maine, answers seem to appear and then transform into more questions. There's a long history of secrets and those who will stop at nothing to keep them from being exposed. Leaving Devine with no idea who he can trust... and who wants him dead.

PRAISE FOR TOM ROB SMITH

“Stunning...Smith, the author of brilliant historical and psychological suspense novels, shows his range is even broader in this triumph of imagination and empathy.”
—*Publishers Weekly* (starred review) on *Cold People*

“*Child 44* was one of those rare books that managed to thrill both the Booker judges and the Richard and Judy brigade. *The Farm* is, perhaps, even better. It’s so good, in fact, that you will finish it quickly and then be jealous of anyone who hasn’t read it yet.”
—*The Independent* (UK) on *The Farm*

“Stellar debut...completely original and absolutely satisfying.”
—*Publishers Weekly* (starred review) on *Child 44*

“*Child 44* managed to straddle the line between well-researched, absorbing historical fiction and propulsive thriller that would earn the book universal praise...and a place on the Man Booker Prize’s longlist (unusual recognition for a work of genre fiction)...Smith’s exploration of love...is perhaps the novel’s most haunting element. *Agent 6* leaves the reader wondering how love begins and, too sadly, how it ends.”
—*Los Angeles Times* on *Agent 6*

SYNOPSIS:

Danny and Luis have been a couple for twenty years. Piece-by-piece, they’ve built a life together. The one thing they didn’t have was the one thing that, when they first met, was denied them: the possibility of marriage. They’ve witnessed the weddings of their friends, but the law was clear and would not recognize the union of two men.

But the law has now changed. Marriage, for the first time, would be legal. So while celebrating the 20th wedding anniversary of their close friends, Danny realizes he’s ready for more from his relationship with Luis. He wants them to be married. He wants to declare their shared past as the start of their renewed future. He proposes to Luis, and the moment he does, he risks everything they’ve built falling apart.

Deeply felt and remarkably tender, TWENTY YEARS TOGETHER is a profound exploration of the bonds we create with each other, of the tension between living authentically against the expectations of family and community, and, most of all, of desire, romance and love.

-- *Publishers Weekly on The Unspoken*

Publisher: Amistad

U.S. Release: August 26, 2025

SYNOPSIS:

A young Columbian golf caddie at one of Chicago’s most exclusive country clubs seeks out Ashe Cayne to investigate the death of his immigrant uncle whose body had been found in the rocky shoreline of Lake Michigan. CPD has closed the case as an accidental drowning, but Ivan Ramirez, the nephew, is convinced there was foul play involved. Ashe agrees to take the case pro bono after finding out that his friend and socialite Penny Packer had made the referral. Ashe quickly dives into the investigation and discovers that like most of what happens in Chicago, things are not always as they seem. Juquin Escobar was an undocumented immigrant who worked as a day laborer by getting picked up in the parking lot of Home Depot like many other immigrants looking for work. He was last seen getting into a white van belonging to a heating and cooling company. Ashe’s investigation takes him all over the city as he weaves his way from a small taqueria in the hardscrabble Back of The Yards neighborhood where Escobar’s mistress worked, all the way to the scrubbed buildings of downtown and City Hall. This is where the city’s longest-serving and most powerful alderman, Pat Flynn, has been running a covert lucrative scheme of extortion and influence peddling that if discovered would not only end his illustrious career, but send him to prison for the rest of his life, something he’ll do anything to avoid, even if it’s murder.

SYNOPSIS:

In *The Voyage of Sorcerer II*, Venter and science writer David Ewing Duncan tell the remarkable story of these expeditions and of the momentous discoveries that ensued—of plant-like bacteria that get their energy from the sun, proteins that metabolize vast amounts of hydrogen, and microbes whose genes shield them from ultraviolet light. The result was a massive library of millions of unknown genes, thousands of unseen protein families, and new lineages of bacteria that revealed the unimaginable complexity of life on earth. Yet despite this exquisite diversity, Venter encountered sobering reminders of how human activity is disturbing the delicate microbial ecosystem that nurtures life on earth. In the face of unprecedented climate change, Venter and Duncan show how we can harness the microbial genome to develop alternative sources of energy, food, and medicine that might ultimately avert our destruction.
