Space is Cool as Fuck is a coffee table book you won't be able to put down.

Visually stunning with its finger on the pulse of and a wide view of hip, contemporary art – from street art, to 8-bit, to the psychedelic.

Co-Author Kate Howells is both a space fanatic and the Global Community Outreach Manager of the Planetary Society, an organisation empowering the world's citizens to advance space science and exploration. With a little help from her friends in the community (including legendary Bill Nye the Science Guy), she has put together this kid's book for adults, where everything you thought you could never understand about the universe is explained in plain-old filthy English, just like talking to an old friend for hours after everybody's left the party, only stocked with actual, scientifically valid information.

No book can tell you everything you need to know about space, but this one tells you what you want to know – all the coolest shit out there.

Over 50 chapters on subjects ranging from aliens, to black holes, to the degenerate astronomer who drank all night and died from holding in his bladder and lost his nose in a duel, to things you take for granted until you really think about it, like matter – what the fuck is all this shit we are?, with a brief history of the whole universe, you'll be left scratching your head and gazing up in absolute wonder.

Kate Howells & Friends

Space is Cool as Fuck features an in-depth and illuminating interview with famous '90s television scientist Bill Nye the Science Guy, Head of the Planetary Society, who believes that, no, we are not fucked and this planet and our people have a future.

Taking all the best bits of science and squishing it all together for the ADD generation, *Space is Cool as Fuck* will be finding a permanent home on living room tables around the world.

Space is Cool as Fuck features more than 100 wild artworks, photographs and illustrations from 40 international young artists curated by brilliant designer Cynthia Larenas. From hand-picked unknowns like Kate Kurucz and Adrian du P.B. to up-and-comers like Aida Azin, Waiton Fong, and Chrissie Abbott, to the more established Joel Vans, Kareena Zerefos, James Reka, Regan Tanamui (Ha Ha) and Marina Zumi, each artist brings their own aesthetic to the majesty and wonder of space giving the book its exquisitely eclectic style.

A newcomer to the craze that just won't die

The *Quit Smoking Colouring Book* is equal parts disgusting, insulting, offensive and confronting. Why smoke when you can while-away the time colouring in these beautiful zen-style doodles by artist Yjulia Gramotneva – featuring such delightful opportunities as colouring in tongue cancer, or beautifully detailing a hole in the throat; along with some humorously impolite prose littered with confronting facts, like how smoking can waste 7200 hours in five years, inspiring information and delightful poetry, like ‘if your teeth are quite brown and smell like a bum, if you’re down in the dumps ‘bout your bloody gums, if you’re sick of your mouth looking like an ass, then tell the next ciggie, “thanks, but I’ll pass.”’

The Quit Smoking Colouring Book is the perfect gift for that friend or loved one that just won’t give up the death sticks. A funny take on a perilously unfunny situation.

Designed by up-and-coming Australian artist Aga Makowiecka this book cover is printed on a matt stock with stunning copper coloured metallic foil to accent the intricate illustrations.

The Illustrated Guide to Lucid Dreaming is a how-to guide like no other.

The book is a step-by-step guide to the latest mind-body-spirit craze sweeping the nations. Rediscovered from thousands of years ago, lucid dreaming is the ability to become conscious in your dreams and to shape and control them. As real as anything in your waking life, existing inside your dreams and experiencing them in this way opens up untold new doors.

We spend more than one third of our lives asleep, so it's time to make the most of all those lost hours!

The subconscious mind shapes our every day life – wouldn't you like to get in there, take a look and do some spring-cleaning? Fly to the Caribbean and shoot into the water to explore the world's wonders? Take the world's fastest car onto a motor track on the moon? Or just simply sit, at peace, in a world all of your own.

Sleep better, improve your memory, and boost your positivity! You can even learn to play piano! It can all be done from the comfort of your bedroom.

What sets this book apart are the breathtaking illustrations of surreal dreamscapes. This book draws together all the information you need, from the writings of the ancients to the most modern research to really get to know yourself inside and out overlaid by gorgeous work by emerging and established international artists.

The Collected Wisdom of Donald Trump

As the Donald Trump show has moved from the boardroom deeper into the public consciousness, the infantile billionaire with a passion for his own voice has kept up a steady diatribe of gibberish and foolishness.

For the first time, each and every piece of Trump's wisdom has been documented and compiled into this, *Trump: The Collected Wisdom*, with over 100 completely blank pages.

Featuring absolutely nothing from cover to cover, this book has exactly as much substance as the future President himself.

A keen piece of satire and a tribute to a great man with absolutely nothing useful to say – sure to delight and amuse any Trump detractor, and the only book easy enough to read for his supporters.
