Dziś odwiedziliśmy prawdziwą restaurację. Kucharz z naszą pomocą przyrządził pizzę. Podawaliśmy mu składniki, które lubimy. Później wspólnie zjedliśmy wszystko co do okruszka, a po powrocie do przedszkola zrobiliśmy sobie własną restaurację w piaskownicy!

Guciu, czym kucharz przyprawia potrawy?

Zdarza się, że chorujemy. Wtedy rodzice zabierają nas do lekarza. Lekarz nas bada, ogląda nasze ciało, słucha, jak bije nam serduszko. Czasem nas mierzy lub wazy albo nakłada opatrunek. Gdy już wie, co nam dolega, przepisuje lekarstwa i mówi, co zrobić, byśmy się lepiej poczuli.

Guciu, co pan lekarz zaleca, gdy ktoś jest chory?

AAAA psik! Na katar

Oto winowajca:

RINOWIRUS

Jego nazwa ma związek z greckim wyrazem *rhin*, czyli „nos”. Wirus ten to mała, brylowata cząstka zakaźna. Te wirusy sprawiają, że mamy katar, boli nas gardło, kaszлемy.

Kap. kap

Są to objawy zapalenia błony, która wyszła od środka nosa i gardła. Rinowirusy próbują złamać linię obrony właśnie tam. Jednym ze skutków tej walki jest to, że kręci cię w nosie, często kichasz, a potem potrzebujesz dużo chusteczek, bo oczy łzawią, a z nosa cieknie wodnisty katar.

The Horror! Or Where Babies Come From

Author: Grzegorz Kasdepke

Illustrator: Paulina Daniluk

Miss Nicely has swallowed a child! And she does not even try to hide it! Kids are terrified. Who will be next? Clever Bodzio, Rozalka or Grześ? Just in case it is best to hide in the toilet... or in the changing room... or in the headmistress's office... But what if she acts in collusion with Miss Nicely? You should immediately call the police! It will be a true horror, before kids discover where babies come from...

I read this book with a real satisfaction. It is written skillfully and wittily. The issue of reproduction is discussed openly, comprehensibly, and to the point, without the overload of information, but also without blushes of shame. Though with charm and a large dose of warmth. The children live through the horror when a reliable knowledge is replaced with random information. I think that the book carries an important message for both younger and older readers. Not only regarding the issue of reproduction, but also children's fears. Strongly recommended!

Dagna Ślepowrońska, psychologist

In this series:

– Wiesz co... – odezwał się drżącym głosem Grześ. – Lepiej stąd zmykajmy!

Dwa razy nie trzeba było tego Rozalce powtarzać. Tym bardziej że sekundę wcześniej pani Milka podniosła głowę znad książek i zaczęła się rozglądać po przedszkolnej sali. Rozalka przysięgała, że pani Milka patrzy na dzieci z apetytem.

– Udawaj zająca – szepnął Grześ. – Kicamy w stronę toalet.
– Przecież pani Milka zwróci na nas uwagę... – jęknęła Rozalka.
– Jeżeli będziemy stali nieruchomo, to tak – odszepnął Grześ. – Kicanie to nasza jedyna szansa.

Było w tym trochę racji. Praca w przedszkolu przyzwyczaiła panią Milkę do dziwnych zachowań dzieci. Kicanie w stronę toalety wydawało się jej tak naturalne, że istotnie nie zwróciła zbytniej uwagi na Rozalkę i Grzesia. Bardziej zaintrygowało ją zachowanie Bodzia – tkwił w najodleglejszym kącie sali i szeroko wytrzeszczonymi oczami wpatrywał się w panią Milkę.

– Co ci jest? – zapytała.
Bodzio pobałdł.
– Źle się czujesz? – Pani Milka zaniepokoiła się nie na żarty.

Ale Bodzio, zamiast odpowiedzieć, czmychnął w stronę toalety.

Pani Milka zamrugala. Działo się coś niepokojącego. Przedszkolaki były niemrawe i cichsze niż zwykle. Odgrodziły się od niej murem z klocków lego, niektóre wzmacniały budowle, podpierając ją książeczkami w twardych okładkach. Może to pogoda wpłynęła na ich nastrój? Od rana lał deszcz, ciemne chmury szorowały brzuchami o anteny na dachach wieżowców; zrobiło się ciemno, jakby już dawno zapadł zmierzch – a przecież dzieci dopiero co zjadły śniadanie.

Śniadanie!

Może to po nim Bodziowi zrobiło się niedobrze?

Pani Milka pośpieszyła w stronę toalet.

Za oknem zaczęło grzmieć...

To the Rescue! Medicine Today and Yesterday

Author: Anna Bartosik
Illustrator: Asia Gwis

Medicine – though not necessarily as we understand it today – has accompanied humans from the very beginning of our history. People have always got ill and tried to relieve discomfort. They examined, tested, experimented and observed. Some methods of combatting ailments turned out to be effective, others were harmful and dangerous. But all, in one way or another, have contributed to the development of medicine.

- Who first dared to look inside the body of a deceased patient?
- What were the first surgical instruments made of?
- What were anatomical theatres?
- What elements are humans made up of?
- What was laughing gas used for?
- What examination is made difficult by claustrophobia?

You can find answers to these and many more pressing questions in this fascinating book by the researcher and populariser of science Anna Bartosik. The content is complemented by Asia Gwis's beautiful illustrations, which also contain additional information.

Aspiryna

Już w czasach starożytnych Egipcjanie znali cudowne właściwości **kory wierzby**, która zawiera kwas salicylowy. Przygotowywano z niej wywary i napary zwalczające ból i gorączkę oraz zapobiegające stanom zapalnym. Naukowcy bardzo długo badali, co dokładnie odpowiada za te wspaniałe właściwości. Pod koniec XIX wieku **Felix Hoffmann**, bardzo zdolny chemik pracujący dla firmy chemicznej Bayer, otrzymał w laboratorium tę samą substancję, która jest obecna w korze wierzby, i nazwał ją **aspiryną**. W ten właśnie sposób po raz pierwszy w historii naukowcy stworzyli w laboratorium lek na podobieństwo substancji występującej naturalnie, a firma stała się światowym liderem w jego sprzedaży. Mimo że w ciągu wielu lat stosowania aspiryny okazało się, że nie każdy może ją bezpiecznie przyjmować, jest to najczęściej wydawany lek w aptekach na całym świecie. Rocznie zażywamy około 100 miliardów tabletek. Jeżeli przyjmiemy, że naszą planetę zamieszkuje 8 miliardów ludzi, to każdy w ciągu roku polyka przynajmniej 12 tabletek aspiryny!

FELIX HOFFMANN

Niemiecki chemik urodzony 21 stycznia 1868 roku w Ludwigsburgu, a zmarły 8 lutego 1946 roku w Szwajcarii. Jako pracownik niemieckiej firmy farmaceutycznej Bayer opracował przemysłową metodę produkcji aspiryny.

Hérons, Hens and Gannets

Author and illustrator: Asia Gwis

Birds live everywhere: in cities, in the jungle, on the water, in the country and in the forests... They do not fear the cold of the Antarctic nor the scorching heat of the tropics. They are all very different: there's the tiny bee hummingbird and the huge common ostrich. There are adorable birds like the long-tailed tits and clever birds like ravens. There are the colourful parrots and the grey sparrows. They fly, they run, they build their homes and lay their eggs. Most of them are sociable, but there are some loners out there too. There are over 10 thousand bird species in the world.

They're everywhere. On land, in the water, underground, on trees, in your gut, in your fridge, on your skin. They're used to make lamps, chairs, wallets and to build houses from... Who knows what they will be used for in the future if so far only 7% of all species of fungi have been described? They're the most underrated, varied and secretive organisms on Earth.

Take a peek into the kingdom of fungi with us.

The Egg

Author: Eliza Piotrowska

Illustrator: Asia Gwis

Ancient Romans believed everything begins „ab ovo”, which means “from an egg”. The Earth was created from a large egg, and the Sky from its shell. Life on Earth also begins with eggs, except they're a bit smaller. All Roman feasts began with eggs and today eggs are the highlight of Easter festivities... It's worth taking a closer look at eggs: compare the eggs of birds, reptiles (including prehistoric reptiles!), amphibians, fish, insects and even mammals; find out how eggs are used in cooking, the sciences, architecture and design; see egg-inspired works of art and also meet people who'd rather stay as far away from eggs as possible...

Baby Racoons

Author and illustrator: Ewa Kozyra-Pawlak

Mr and Mrs Ragoon like things to be squeaky clean. They clean and wash everything non-stop, but they also have something to worry about: their children get awfully dirty. Whatever the parents wash, the baby raccoons stain with mud or something greasy. They also make a terrible mess. Is there anything that could make the two worlds come together? But that's not all – the boar are accompanied by their cousins, like the well-loved warthog or the domestic pig, who is perhaps the cleverest and most sensitive of all animals known to us.

Her mum, dad, best friend Tommy and, most importantly, her beloved Piggypup are by her side. Hey, Jimmy!

Hey, Jimmy! Rough Patches again?

Wiem, co myślicie. Skoro dzielę geny z kimś takim, to istnieje spore ryzyko, że sam należę do tej mniej świetnej części ludzkości. Otóż pragnę was uspokoić: stan mojego umysłu odpowiada całkowicie świetnemu wygładowi. To drugie ocenie sami.

Cóż, tak to już jest: jedni w loterii genowej mają więcej szczęścia niż inni. Bo przecież zarówno ja, jak i Wyjcie czerpaliszy z tej samej puli. A muszę zaznaczyć, że rodzice zapewnili nam całkiem dobry zestaw startowy. W końcu nie każda mama to wybitny inspektor policji, przed którym drżą najgorsi gangsterzy w kraju.

Rodzice są okej. Nie mogę narzekać. Kochają mnie. Wyjcie też – co dowodzi, że są naprawdę bezinteresowni. Pewnie, zdarzają się tarcia, jak w każdej rodzinie. Najczęściej powodem jest Anka.

Hey, Jimmy! is a new, funny adventure series for primary school kids. Every volume is a complete, compelling story full of jokes, surprises and thrilling events, all composed with the best cinematic plotting. The books perfectly combine traditional prose narrative with the style of a dynamic omic book – the drawings are not just illustrations, they are part of the narrative.

Hey, Jimmy! has been a great success on the Polish publishing market, and not only in economic terms – the series has received a huge number of enthusiastic reviews (both from professionals and from readers, or readers' parents). The first volume was voted Best Book for Spring 2015, and the second was shortlisted by Granice.pl for Best Book for Winter 2015. According to The Book Institute of Poland, the premiere of the series was one of the most important events on the Polish children's book market in 2015.
